

THE AGENDA 95 PRECEDINGS- A CALL FOR ENTRIES

Each year we publish a collection of creative works designed to stimulate thinking and opinions about a variety of topics prior to the conference. Here are several options to make this booklet more informative, entertaining and thought provoking:

1. An original article that reveals your thoughts and ideas about this year's program theme — the role of computing in the development of the information highway compared to the role of other industries, such as video games, telecommunications, television and publishing.
2. Any other pertinent articles on the subject of the information highway.
3. A brief description of your idea (serious or not) for the technology invention to end all inventions.
4. Share your favorite inspirational quote (e.g. "I will go anywhere, provided it be forward." David Livingston).

Submit entries no later than August 5th to: Agenda 95, Attn: Lisa McKeon by MCI Mail to 357-0935, by Applelink to LMCKEON, or fax 415/286-2750. Questions? Call Lisa at 415/312-0687.
